Which type of shoe are you interested in? 😊 12:13

[Loafers](#) 12:13

What is your shoe size? 12:13

40 12:13

Any preferred color? 12:13

[Red](#) 12:14

Thank you. I have your current selection as:
- Style: Loafers
- Size: 40
- Color: Red

Please confirm how you'd like to proceed:
- **Edit details** – change style, size, or color
- **Continue** – keep these selections and proceed to delivery details

You can tap a choice above or type your preference. 12:14

[continue](#) 12:14

Perfect, we'll proceed with:

- Style: Loafers
- Size: 40
- Color: Red

To arrange home delivery, I'll need just a few details:

- 1) Your full name (for the delivery label):
- 2) Delivery address (including city, state, and postal code):
- 3) Contact phone number (for the courier):

Please provide them in one message if that's easiest. Thank you for your trust in Inuit.

deva

12:14

Thank you, Deva.

I now just need the remaining delivery details:

- 2) Delivery address (including city, state, and postal code):
- 3) Contact phone number (for the courier):

You can share both in one message. Once I have these, I'll summarize your full order for confirmation.

Type here...

Thank you.

I have the delivery address noted as:

kharar darpan city 144201

I now just need your:

- 3) **Contact phone number** (for the courier):

Once I have your phone number, I'll present a final summary of your order and delivery details for you to confirm. Thank you for your trust in Inuit.

Brief description of the Chatbot:- This project is an interactive chatbot built using Landbot for the fictional luxury footwear brand INUIT.

The chatbot is designed to help website visitors explore shoe products, understand how the products are made, and place orders for home delivery — all through a seamless conversational experience.

The goal of this bot is to reduce bounce rate, engage users, and increase conversions by guiding visitors through product selection and purchase steps using buttons, quick replies, and embedded videos.
